Dear [HIRING MANAGER NAME or "Hiring Team"],

I am applying for the [POSTED ROLE TITLE] posting. You already know my day-to-day work, so this letter is a statement of intent rather than an introduction. [ONE SENTENCE: what this specific role/desk needs next and why you are positioned to deliver it. Delete this bracket text.]

The record since I joined in September: over quota every month since my second month in the seat, including over \$4M funded against the \$2M monthly new-business target in each of April and May. I support 10+ vendor relationships across Ontario, Alberta, BC, and Quebec, and I work files end to end: spreads, debt ratios and FCCR, four-block submissions to credit, documentation, and funding. Beyond the book, I carried the collections scorecard through STP Gate 1 with the credit and portfolio teams, and it entered pilot in September 2026; I also built the quoting engine the desk uses in place of the legacy calculators, validated to the penny against TValue.

What the next role asks for that I am already doing: owning vendor conversations rather than supporting them, presenting submissions to credit directly, and carrying independent coverage of a territory. The pieces I would be stepping into, I have been practicing inside my current scope; the pieces I already own, the numbers above speak for.

I would welcome the conversation.

Sincerely,

Suleyman Kiani
